629315	1" Disc	10	A6021

# Endoform® Natural High Flow is now available in the large 8.5 x 6 inch size

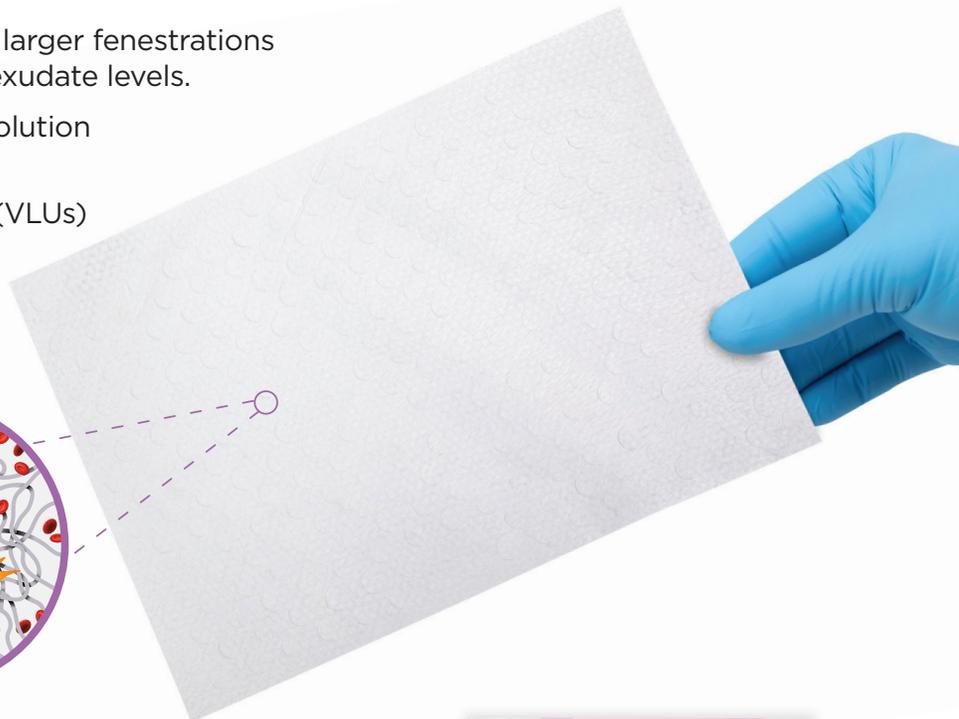

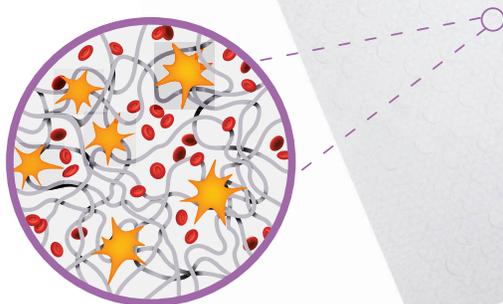

**Endoform® High Flow** is designed with larger fenestrations to help manage wounds with variable exudate levels.

The large 8.5 x 6 inch size is the ideal solution for larger wounds including:

- Large or clustered Venous Leg Ulcers (VLUs)
- Large traumatic wounds
- Donor sites
- Partial and deep partial burns

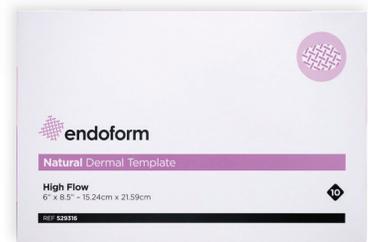

**Endoform®** is a unique extracellular matrix (ECM) that supports all phases of wound healing.

It provides a natural, porous ECM scaffold for rapid cell infiltration and 148 secondary molecules important for healing.
