

Endoform™

Restorative Bioscaffold

Kickstart care of acute & chronic wounds⁽¹⁾

The **only ECM** available for professional use from **day one**.

Endoform™ is a unique extracellular matrix (ECM) that supports all phases of wound healing. Simple, easy to use and **can also be applied by a nurse**. **Endoform** provides a natural, porous bioscaffold to help build new tissue⁽²⁾. **Endoform** is appropriate for use early in wound management to escape the inflammatory phase and advance healing to the proliferative phase⁽¹⁾.

Endoform Natural™ and **Endoform Antimicrobial™** are indicated for the management of acute and chronic wounds including:

- Partial & full thickness wounds
- Diabetic ulcers
- Pressure ulcers
- Venous ulcers
- Chronic vascular ulcers
- Surgical wounds**
- Traumatic wounds**
- Draining wounds
- Tunneled/undermined wounds

**Refer to full Instructions For Use for list of indications.

Product Overview

Endoform™

Restorative Bioscaffold

Endoform™ Natural

- Designed in various formats to support wounds with **variable levels of exudate**
- The only advanced ECM available for use from day one.
- Can be used in conjunction with **NPWT, HBOT, Compression & Offloading**

Endoform™ Antimicrobial

- Suitable for wound management where there is an **elevated risk of infection**
- All the benefits of Endoform Natural, with the addition of **0.3% ionic silver**
- Provides **broad spectrum antimicrobial** activity for **up to 7 days***⁽⁴⁾** and **prevents biofilm formation⁽⁴⁾**

Endoform Natural			
	Stock #	Product Size	Qty/Box
HIGH FLOW	529302	5 cm x 5 cm – 2 x 2"	10
	529304	10 cm x 12.7 cm – 4 x 5"	10
	529316	21.59 cm x 15.24 cm – 8.5 x 6"	10

Endoform Antimicrobial			
	Stock #	Product Size	Qty/Box
HIGH FLOW	629302	5 cm x 5 cm – 2 x 2"	10
	629304	10 cm x 12.7 cm – 4 x 5"	10

Product Size Reference

More Information

***Endoform™ Antimicrobial contains 0.3% ionic silver to protect the dressing from microbial colonization. Ionic silver have been included in the Endoform™ Antimicrobial to protect the device from microbial contamination. Reduction in colonization or microbial growth on the device has not been shown to correlate with a reduction in infections in patients. Clinical studies to evaluate reduction in infection have not been performed. Product availability may vary by country. Please check with your local sales representative or distributor for more information.
