

Myriad Morcells™

Morcellized Bioscaffold

Myriad Morcells™ – a **conformable ECM graft** for the surgical management of acute, chronic and complex wounds.

Ideal for undermined and tunnelled wounds to help achieve a planar wound surface.

Myriad Morcells provide:

- ✓ **Sustained release** of biology including growth factors, anti-inflammatory proteins and cytokines
- ✓ Increased contact and surface area to maximize delivery of **ARO A ECM™** components.

Myriad Morcells helps facilitate:

- Immediate coverage of exposed bone, tendon and vital structures
- Rapid granulation tissue formation, often in a single application

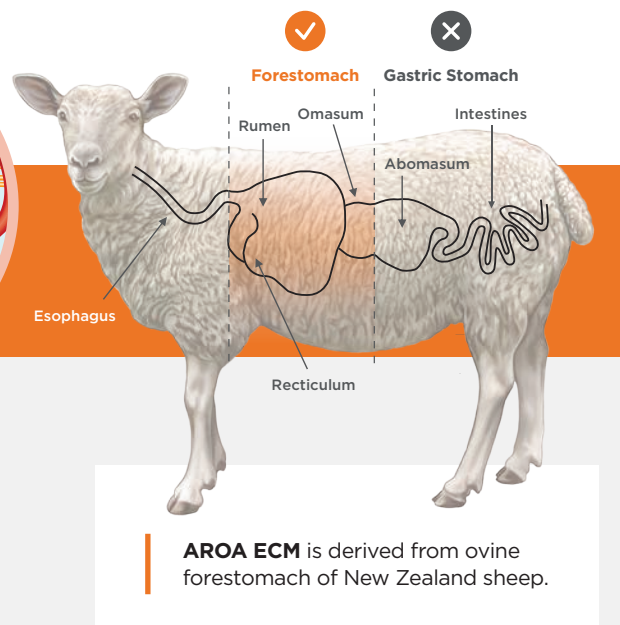

Myriad Morcells™

Morcellized Bioscaffold

Myriad products are made from **AROA ECM™** regenerative healing technology.

- An optimal balance of structure & biology – including growth factors, cytokines & anti-inflammatory proteins¹
- Angioconduction – facilitation of rapid blood vessel formation²
- Enables **regeneration** of **functional tissue**³

AROA ECM is derived from ovine forestomach of New Zealand sheep.
