Important Notice and Disclaimer

This presentation (**Presentation**) is dated 29 May 2025 and has been prepared by Aroa Biosurgery Ltd, New Zealand company number 1980577, ARBN 638 867 473 (**AROA** or the **Company**).

Information in this Presentation

The information in this Presentation is of a general background nature, is in summary form and does not purport to be complete. This Presentation has been prepared in conjunction with an oral presentation and should not be taken out of context. It does not contain all information relevant or necessary for an investment decision or that would be required to be included in a prospectus or other disclosure document under the Corporations Act for an offer of securities in Australia or in any other jurisdiction. This Presentation includes **GRAPHIC WOUND IMAGERY, VIEWER DISCRETION IS ADVISED**. This Presentation is intended for investor education purposes only and is not intended as a medical device advertisement (including, for the purposes of the New Zealand Medicines Act 1981). Products shown may not be available in your region. Results may vary. The content of this Presentation is provided as at the date of this Presentation (unless otherwise stated). Except as required by applicable law, AROA does not plan to publicly update or revise any information contained in, or provided with, this Presentation whether as a result of any new information, future events, changed circumstances or otherwise.

Not a prospectus or an offer of securities

This Presentation is not a prospectus or any other offering document under Australian law (or under the law of any other jurisdiction in which an offer of securities may be received). Nothing in this Presentation should be construed as an invitation, offer or recommendation of securities in AROA (or any of its subsidiaries) for subscription, purchase or sale in any jurisdiction. Potential investors should read this

presentation in conjunction with AROA's other periodic and continuous disclosure announcements lodged with ASX and should rely solely on their own judgement, review and analysis when making an investment decision about AROA.

Future performance

Past performance information in this Presentation is given for illustrative purposes only and should not be relied upon (and is not) an indication of future performance. The Presentation contains certain "forward-looking statements". The words "forecast", "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. These statements are based on current expectations and assumptions regarding AROA's business and performance, the economy and other circumstances. As with any projection or forecast, forward-looking statements in this Presentation are inherently uncertain and susceptible to changes in circumstances. Opinions involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct. Actual results, performance or achievements may differ materially from those expressed or implied in forward looking statements and statements of opinion. In particular, market data reflects estimates only and investors are cautioned against placing undue reliance on it.

Symphony

01 **Complex chronic wounds**

02 **Reimbursement uncertainty** - reimbursed in hospital outpatient departments but not physician offices. Launch paused - not constraining overall Aroa direct growth

03 **Randomised controlled trial** - expected to conclude Q3 2025

04 **Likely to be reimbursed in physician offices from 2026**

05 **Endoform & Symphony synergies in outpatient market**

For the management of hard-to-heal wounds

Progresses stalled wounds

Broad spectrum immune modulation enables the wound to escape the inflammatory phase^{2,3}

Designed for wound closure

ARO A ECM and hyaluronic acid work synergistically to help speed wound closure⁴

Supports continuum of outpatient care

Along with Endoform, enables all patients to access advanced ECM technology

01 **Compelling clinical evidence,**
- low recurrence¹⁻⁴ & explantation^{2, 5-10} rates

02 **Portfolio expansion** - OviTex IHR,
Large PRS & LTR submission

03 **FY'25 headwinds** - strong future potential
