

FY26 FULL YEAR RESULTS

A breakout year for AROA

Important Notice and Disclaimer

This presentation (**Presentation**) is dated 26 May 2026 and has been prepared by Aroa Biosurgery Ltd, New Zealand company number 1980577, ARBN 638 867 473 (**AROA** or the Company).

Information in this Presentation

The information in this Presentation is of a general background nature, is in summary form and does not purport to be complete. This Presentation has been prepared in conjunction with an oral presentation and should not be taken out of context. It does not contain all information relevant or necessary for an investment decision or that would be required to be included in a prospectus or other disclosure document under the Corporations Act for an offer of securities in Australia or in any other jurisdiction. This Presentation includes **GRAPHIC WOUND IMAGERY, VIEWER DISCRETION IS ADVISED**. This Presentation is intended for investor education purposes only and is not intended as a medical device advertisement (including, for the purposes of the New Zealand Medicines Act 1981). Products shown may not be available in your region. Results may vary. The content of this Presentation is provided as at the date of this Presentation (unless otherwise stated). Except as required by applicable law, AROA does not plan to publicly update or revise any information contained in, or provided with, this Presentation whether as a result of any new information, future events, changed circumstances or otherwise.

Not a prospectus or an offer of securities

This Presentation is not a prospectus or any other offering document under Australian law (or under the law of any other jurisdiction in which an offer of securities may be received. Nothing in this Presentation should be construed as an invitation, offer or recommendation of securities in AROA (or any of its subsidiaries) for subscription, purchase or sale in any jurisdiction. Potential investors should read this presentation

in conjunction with AROA's other periodic and continuous disclosure announcements lodged with ASX and should rely solely on their own judgement, review and analysis when making an investment decision about AROA.

Future performance

Past performance information in this Presentation is given for illustrative purposes only and should not be relied upon (and is not) an indication of future performance. The Presentation contains certain "forward-looking statements". The words "forecast", "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. These statements are based on current expectations and assumptions regarding AROA's business and performance, the economy and other circumstances. As with any projection or forecast, forward-looking statements in this Presentation are inherently uncertain and susceptible to changes in circumstances. Opinions involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct. Actual results, performance or achievements may differ materially from those expressed or implied in forward looking statements and statements of opinion. In particular, market data reflects estimates only and investors are cautioned against placing undue reliance on it.

Self-funding growth

1. Constant currency uses a NZ\$/US\$ exchange rate of 0.60, compared to the average exchange rate of 0.59 in FY26. Constant currency removes the impact of exchange rate movements. 2. Revenue and Normalised EBITDA are presented on a constant currency basis using a NZ\$/US\$ exchange rate of 0.60, reflecting the rate set for financial guidance. 3. Normalised EBITDA is non-conforming financial information, as defined by the NZ Financial Markets Authority, and has been provided to assist users of financial information to better understand and assess the AROA group's comparative financial performance without any distortion from one-off transactions. The impact of non-cash share-based payments expense and unrealized foreign currency gains or losses has also been removed from the Profit or Loss. This approach is used by Management and the Board to assess the Group's comparative financial performance. 4. Reported basis.

FY26 financial results

PROFIT OR LOSS (Normalised, NZ\$)

	FY26	YoY change
Total revenue	NZ\$103.9m	+23%
Product gross margin	85.5%	-
Normalised operating expenses¹	NZ\$82.5m	+11%
Normalised EBITDA¹	NZ\$12.6m	+201%

CASH FLOW (Normalised, NZ\$)

	FY26	YoY change
Operating activities	NZ\$10.5m	+NZ13.1m
Investing activities²	(NZ\$3.7m)	-
Financing activities	(NZ\$1.7m)	+18%
Total net cash flow²	NZ\$5.1m	+167%

All results are presented on a reported basis, except where indicated. 1. Normalised operating expenses and EBITDA have been presented on a normalised basis, removing the impact of non-cash share-based payments expense and unrealized foreign currency gains or losses. This approach is used by Management and the Board to assess the Group's comparative financial performance. Normalised operating expenses and EBITDA are non-conforming financial information, as defined by the NZ Financial Markets Authority, and has been provided to assist users of financial information to better understand and assess the Group's comparative financial performance. Refer to Appendix for a reconciliation between the normalised profit or loss and NZ GAAP. 2. Investing activities and total net cash flow have been presented on a normalised basis, removing the impact from changes in term deposits. This approach is used by management and the Board to assess the Group's comparative financial performance.

Myriad growth

+54%

CC¹: +52%

FY26 Myriad sales growth

Relevance

- Highest-growth product line in the portfolio
- Sold by direct sales-force
- High margin product family (+90%)
- Sold within a stable US reimbursement environment
- Backed by prospective clinical evidence (e.g. MASTRR)

Myriad sales trajectory (NZ\$m)

A high-quality revenue base

Aroa earns revenue two ways; both have high margin. The direct channel is now the majority, and growing fastest.

AROA direct sales: 59%

Endoform™, Myriad and Symphony sold by AROA's own US sales force. This is the fastest-growing part of the business, led by Myriad with +54% growth.

Partner sales: 41%

OviTex and OviTex PRS, where AROA is the exclusive manufacturer and TELA Bio is the distributor. This is recurring, high-margin revenue, not a dependency. It diversifies AROA's reach into hernia and breast reconstruction at no sales-force cost.

Every dollar AROA reports is high-margin product revenue, whether sold direct or manufactured for a partner.

Disciplined use of funds

Investment is concentrated where it drives growth (sales reach and clinical evidence) while R&D intensity normalises

02 | Strategy & growth pillars

Three distinct growth pillars – Myriad, Symphony & OviTex

Substantial Growth Opportunities > \$3B¹ TAM

Total Addressable Market
> \$1.8B² USD

Total Addressable Market
> \$1.3B³ USD

Symphony™ **Endoform™
Antimicrobial** **Endoform™
Natural**

e.g. Diabetic Foot Ulcers, Venous
Ulcers, Pressure Ulcers, chronic wounds

COMPLEX WOUNDS

**Myriad
Matrix™** **Myriad
Morcells™** **Myriad
Morcells Fine™**

e.g. Trauma, tumour removal, general
surgery, inflammatory skin disease

SOFT TISSUE RECONSTRUCTION

OVITEX®
REINFORCED TISSUE MATRIX

OVITEX® PRS
REINFORCED TISSUE MATRIX

e.g. Hernia repair, abdominal
dehiscence, breast surgery

2. Idata, Soft Tissue Repair Market 2022. AROA management estimates.
3. DRG Millennium Research data; Hernia Repair Devices, 2020. DRG Millennium Research, Breast Implants & Reconstructive devices, 2018. OviTex and TELA Bio are trademarks of TELA Bio, Inc.

Products that deliver world-leading outcomes at lower total cost of care

World-leading outcomes

- Restores tissue^{1, 2}
- Fewer complications^{1, 2}
- Lower infection rates^{1, 2}
- Reduced graft loss^{1, 2}
- Higher patient & provider satisfaction⁶

Unmatched value

- Lower product cost^{1, 2} (avg US\$6.5k less per use)
- Lower reapplication rates^{1, 2}
- Surgical-site infection reduction³ (~US\$20k/day saved)⁵
- Length-of-stay reduction⁴ (~US\$3k/day saved)

Widespread impact

- 130 peer-reviewed publications
- Real-world evidence across ~5,000 patients
- 7.8 million+ AROA ECM devices used globally
- Regulatory approvals in 59 countries

Three growth pillars

One ECM platform, three product families, four distinct opportunities

Myriad

SOFT-TISSUE RECONSTRUCTION

Trauma, limb salvage, & general surgery, sold directly by AROA

Channel: Hospital operating room

OviTex

HERNIA & BREAST RECONSTRUCTION

Reinforced tissue matrix. Aroa manufactures; TELA Bio distributes. Revenue temporarily constrained by contracting.

Channel: Via partner

Symphony

COMPLEX CHRONIC WOUNDS

Diabetic foot & venous leg ulcers. RCT primary endpoint met. Positioned to win under CMS reform.

Channel: Hospital outpatient

Myriad: the growth driver

MYRIAD OUTCOMES

Single application

Median of one product application across studies¹⁻⁶

Minimal complications

Low rates of infection and graft loss, even in contaminated defects¹⁻⁶

Supports tissue restoration

Vascularised tissue coverage in as little as 7 days & volumetric fill in 3 weeks¹⁻⁶

FINANCIAL & OPERATIONAL GAINS

Lower product cost, Lower reapplication rates, Surgical-site infection reduction, Length-of-stay reduction

Driven by complex cases

Large complex wounds (trauma) and limb-salvage procedures are driving Myriad's strong sales growth.

Compelling prospective evidence

MASTRR registry data published: lower limb salvage (Lawlor et al. 2024 n=130) and trauma (Cormican et al. 2026 n=49, 61 defects).

Consistency & versatility

Reliable performance across a broad range of surgical procedures and defect types.

Expanded portfolio

Myriad Matrix, Morcells and Meshed – widening the range of addressable applications.

Investing \$5M in sales capability to accelerate growth

Symphony: large new compelling opportunity

REIMBURSEMENT DISRUPTION

The market reset

From 2026, CMS reimburses skin substitutes on a flat-fee basis
– a major time-sensitive reset of a multi-billion-dollar US market.

Short-term shake-out

Price compression, competitors exiting & inventory clearance.
A disruptive event, not a structural threat.

Where the advantage shifts to

- Products with strong value & RCT evidence
- Hospital outpatient department
- Companies with surgical portfolios

Describes AROA.

AROA's position

Symphony is strongly aligned with the new requirements. AROA expects to gain share as the market resets.

HIGHER EVIDENCE REQUIREMENTS

RCT endpoint met

The Symphony randomised controlled trial in DFUs met its primary endpoint

Why it matters: RCT-grade evidence expected to be a gating factor for reimbursement. Many competitors do not have it. Uncertain investment - performance/time/expense

Investing \$4M in sales infrastructure to support launch & drive revenue growth

OviTex: high-quality distributor revenue

AROA is the exclusive manufacturer of OviTex. TELA Bio distributes it – extending AROA's reach at no sales-force cost

Reinforced tissue matrix

A natural-repair alternative to permanent synthetics and legacy biologics in hernia, abdominal wall repair, and breast surgery.

TELA Bio distribution

North American and European distributor. AROA manufactures; TELA Bio sells – a clean division of roles.

Compelling clinical evidence

Low recurrence and explantation rates across multiple peer-reviewed studies (10+ publications).

Comprehensive portfolio

OviTex for hernia repair and OviTex PRS for soft-tissue reconstruction in breast surgery.

Outlook for OviTex

Sales to TelaBio is conservatively expected to be flat due to hospital contracting headwinds.

OviTex contributes revenue and provides exposure to the hernia and breast reconstruction markets without AROA carrying the sales cost for those segments.

03 | Operations

A scaling US direct sales engine

Five consecutive years of revenue growth

Total product revenue has grown to NZ\$104m in FY26, led by Myriad

FY26 GROWTH

- +23%** Total product revenue
- +54%** Myriad
- +8%** TELA Bio (OviTex)

Myriad remains the largest single contributor to growth in absolute dollars.

Scaling US direct sales engine

AROA has built core US commercial infrastructure – the foundation for the next phase of growth

Hospital direct sales team

Targeting operating room procedures with established DRG-based reimbursement. Adding hospital outpatient dept.

Distributor leverage

Distributor networks reach specialties beyond core soft-tissue reconstruction & physician office.

Changed structure & leadership

East/west regional split, more regions & territories, new GM US Commercial & CCO, leadership training.

Infrastructure

Marketing, key accounts, training, sales operations, market access & medical affairs now in place to support scaling .

GPO access

Contracts with all major group purchasing organisations secured.

Productivity focus

FY27 priority is faster ramp-up and higher per-rep productivity.

Myriad commercial momentum

Customer accounts have grown steadily, ongoing focus on sales productivity

Ongoing focus on deeper penetration and higher productivity per rep.

04 | Outlook

A deliberate investment year

FY27 guidance¹: investing to accelerate sales

Focus on the Myriad sales ramp & Symphony launch

TOTAL REVENUE

NZ\$115 - 125m

13 - 23% growth

- Direct revenue growth of 24 - 40% vs FY26
- Sales of OviTex to TELA Bio are assumed to be flat

NORMALISED EBITDA

NZ\$8 - 11m

Deliberate investment
Scaling the growth engine

- **Continued improvement in operating leverage**
- **NZ\$9m of investment into scaling for growth**
 - ~NZ\$5m for commercial leadership capability, sales headcount, & infrastructure to accelerate further growth in Myriad
 - ~NZ\$4m to capitalise on the significant market opportunity for Symphony

1. Guidance is presented on a constant currency basis using a NZ\$/US\$ exchange rate of 0.60, compared to the average exchange rate of 0.59 in FY26. Constant currency removes the impact of exchange rate movements. 2. Normalised EBITDA is non-conforming financial information, as defined by the NZ Financial Markets Authority, and has been provided to assist users of financial information to better understand and assess the AROA group's comparative financial performance without any distortion from one-off transactions. The impact of non-cash share-based payments expense and unrealized foreign currency gains or losses has also been removed from the Profit or Loss. This approach is used by Management and the Board to assess the Group's comparative financial performance.

FY27 priorities and upcoming catalysts

A clear operating agenda and a steady stream of clinical studies for the market to track

FY27 OPERATING FOCUS

- 01 Myriad momentum**
Sustain the growth trajectory in the operating room

- 02 Faster sales ramp**
Higher productivity per rep across the expanded team

- 03 Solid start in Symphony**
Convert the reimbursement opportunity into FY27 sales

- 04 Deeper account penetration**
Grow revenue per existing customer account

- 05 Wider use across IDNs**
Expand adoption within integrated hospital systems

UPCOMING CLINICAL STUDIES & CATALYSTS

- FY27 Q1**
 - MASTRR pressure Injury (n=9)
 - India Study (n==83)
- FY27 Q2**
 - **Symphony RCT publication** (n=143)
 - **MASTRR interim** analysis (n=423)
- FY27 Q3**
- FY27 Q4**
- 2027**
 - **COVER RCT**

Investment highlights

A profitable, self-funding medtech growing 13-23%¹, with a new product catalyst

Proven growth

Five straight years of revenue growth. FY26 above the top of guidance.

Profitable & self-funding

Normalised EBITDA positive, NZ\$5m net cash generated, NZ\$27m cash in hand, zero debt.

Myriad driving growth

Grew 54% in FY26 (CC¹), high-margin product, sold directly.

Symphony catalyst

AROA positioned to benefit from the 2026. CMS reset & RCT primary endpoint met.

OviTex contributes

~75% Gross Margin, no sales expenses, supports direct expansion.
Strong clinical evidence & value

Evidence moat

130 peer-reviewed publications, RCT & prospective 800 patient study pipeline

FY27 is the year to leverage Aroa's evidence & value advantage.
